MECHANICAL ENGINEER

DRM Consulting Engineers are currently recruiting for an enthusiastic Design Engineer to join the MEP Engineering section in our Dunfermline office.

Our MEP Engineering section specialises in providing mechanical engineering solutions to our residential, industrial and commercial sector clients throughout Scotland.

We currently have a varied workload of large and small-scale residential developments, along with commercial and industrial projects, from pre-planning through to construction.

RESPONSIBILITIES:

- Prepare design calculations for mechanical elements such as heating and water services, ventilation, air conditioning, and renewable technology projects from feasibility through to the final construction stage.
- Preparation of mechanical services and schematics
- Prepare technical specifications and reports.
- Liaison with clients, regulators and local authorities.
- Attendance at design meetings, site meetings, and carrying out site inspections.

QUALIFICATIONS / EXPERIENCE

- HNC/Degree in Mechanical Engineering or other relevant subject.
- A Minimum of 2 Years Experience
- Experience using Autocad, and MEP design packages (such as MEPWORX) would be beneficial but not essential.
- Good written and verbal communication skills.
- Ability to work well in a team environment.
- A full clean driving license is preferred.

Please send your CV and covering email to recruitment@davidmurray.co.uk.
